

VEEC Subsidy Program

Our VEEC Subsidy Program

littil is an industry leader in LED lighting in Australia and one of the first to offer Wholesalers our exclusive VEEC Subsidy Program.

Through dedication to the design and engineering of wholesale commercial energy solutions, littil provides the highest quality products to suit the individual needs of our customers. By applying our knowledge and expertise, we help our customers reduce their costs and become more competitive in their own market through initiatives such as the VEEC scheme.

littil takes care of the paperwork and recycling at no extra cost to the customer, electrician or wholesaler.

See reverse for discounted products available.
